

Expand Solstice Content Sharing with Skype for Business

Simple to set up, simple to use. Logitech SmartDock provides a plug-and-play solution to expand Mersive Solstice's in-room collaboration experience to remote participants with Skype for Business. Enable users to start collaborating with Solstice the moment they walk into a meeting space and seamlessly invite remote participants to join via Skype for Business on the Logitech SmartDock.

Share unlimited content with Mersive Solstice Pod to unlock meeting productivity.

- Allow any number of users to share and control any amount of meeting content.
- Cross platform support for Windows, Mac, iOS, and Android devices.
- HD-quality video stream over the in-room WiFi.

Add video collaboration to any room with Logitech SmartDock.

- Securely mount Surface™ Pro in any conference room.
- Start your Skype for Business meeting with one-touch join.
- Add connectivity without clutter.

Complete the experience with Logitech MeetUp.

- All-in-one ConferenceCam with 120° field of view and integrated audio.
- See everyone, even those close to the camera.
- Compact design minimizes cabling and clutter.

By combining Mersive Solstice with Skype for Business, you can finally unify in-room content sharing with remote video conferencing to make meetings more productive, no matter where participants are located.
