CSPH Under-Table Component Storage Panel

The CSPH provides storage near the action while eliminating the mess of components and cables underneath conference room tables and desks. With over 350 square inches (2258 square centimeters) of secure attachment area, it's perfect for ensuring efficient and consistent component placement over large rollouts. Once installed, the CSPH pivots 90° to allow access in vertical position (instead of fighting gravity).

- 1/3 and 2/3 breakaways in case less space is required
- Handle for ease of transport, install and maneuvering of panel
- Security locking screws
- Hinges to 90° for ease of access to components

- Shipped with template to ensure accurate mounting of brackets
- Modular sizing for efficient use of product
- Brackets available separately to use extra breakaway space elsewhere

Application	Dimensions (LxWxD)	Active Mounting Area	Weight Capacity
Under Table / Desk	27.31 x 14.4 x 1.15" (694 x 366 x 29 mm)	14 x 24.5" (355 x 622 mm)	20 lbs (9 kg)
